

# IMSLH-3W-5CCT Series

## LED Step Light Horizontal 120V

### DESIGN FEATURES

#### CONSTRUCTION

- Heavy-duty aluminum housing for durability and long-term performance
- Low-profile horizontal design for clean architectural integration
- Corrosion-resistant finish suitable for indoor and outdoor applications
- Engineered for stable structure and reliable operation in demanding environments

#### OPTICS

- Precision optical lens design for controlled, uniform light output
- Soft, glare-free illumination for safe step and pathway lighting
- Optimized beam spread for consistent ground-level visibility
- Enhances safety while maintaining a modern architectural appearance

#### DRIVER

- Integrated 120V constant current LED driver
- Designed for stable, flicker-free performance
- High efficiency driver system for energy-saving operation
- Built for long lifespan with reliable electrical protection

#### MOUNTING

- Horizontal wall-mounted installation design
- Direct 120V line connection (no external transformer required)
- Easy installation into standard junction box
- Secure mounting system ensures stable and flush fit
- Suitable for stairways, corridors, walkways, and architectural accent lighting

#### Certifications:

- ETL listed
- Suitable for wet locations

### ORDERING GUIDE

| Model #       | Motor /                        |  |
|---------------|--------------------------------|--|
| IMSLH-3W-5CCT |                                |  |
| IMSLH-3W-5CCT | LED Step Light Horizontal 120V |  |
